

Luisa Pisano after graduation in Chemistry in 1993 at the University of Sassari was awarded a 1-year fellowship by the Italian CNR. Later on, she started doctoral studies at the University of Sassari under the guidance of Professor G. Melloni and Professor J. Marquet (Autonoma University of Barcellona). In 1999 she was awarded a postdoctoral Marie Curie fellowship to join Prof. J.-M. Lluch's group at the Autonoma University of Barcellona. Since 2001 she is Researcher/Assistant Professor at the University of Sassari and her research interest involves organometallic chemistry, green processes and molecular structure elucidations by computational NMR.
